fun at the fair

Hello Beads, an innovative new online beading shop combines our two favourite things: jewellery making and parties! If you're based around Kent and Sussex you can throw your friends or kids an expert-hosted do to pick up tips and techniques! But if crafting at home is more your cup of tea, then sign up to the pay-as-you-go or subscription based monthly design projects. The owners have loads more quirky ideas in the pipeline, so keep up-to-date or buy beads and findings at www.hellobeads.co.uk
